

Inflammation Life Force

Systemic and Local Anti-inflammatory Support
90 Veggie Capsules

Patient Reference

Matrix Nutritional

Support for Inflammatory Conditions

Matrix Nutritionals Series was designed as an eclectic offering for the Physica Energetics line of remedies primarily to assist in the “reactivation of the mesenchyme” (Dr. Reinhold Voll), via the nutritional complement pathways. These pathways are present in every system throughout the body and require balanced attention. In keeping with the principles of BioEnergetic Medicine, the remedies nourish and support these systems without punishing them with overstimulation or imbalancing factors, which, ultimately, is counterproductive. This approach has been carefully and respectfully designed to provide the necessary natural (organic where available), synergistic factors in proper energetic and biochemical ratios, to ensure assistance towards yielding a deep and lasting result. They are not to be confused with replacement therapy nutraceuticals that may seem to help for the moment, until the patient stops taking them or the condition is driven deeper. These remedies honour The Legacy of BioEnergetic Medicine, and are known by both patient and practitioner to be exceptionally effective.

Inflammation is the body’s natural response to injury or infection. An inflammatory response can be triggered by physical trauma, chemical toxins, microbial infection, free radicals, etc.

Poor diet and faulty digestion is one of the main causes of inflammation. An overburdened liver is unable to deal with the demands of detoxification, leaving the body exposed to assault by xenobiotics.

The release of histamine, prostaglandins, leukotrienes and other inflammatory mediators, in response to injury or infection, causes an increase in the permeability of nearby blood vessels, allowing fluid and proteins to enter the tissues.

Blood clots are formed to create a physical barrier between the site of infection and the rest of the body, preventing the antigens from entering the blood stream. Macrophages and neutrophils are called to the site of injury or infection to deal with the offending xenobiotic. Additional white blood cells are recruited to clean up dead and damaged cells and assist the tissues to rebuild.

Endogenous proteolytic enzymes also assist in the cleanup duties, breaking down blood clots and scar tissue and assisting in cellular and tissue repair.

Chronic inflammation, resulting from a continued assault on the immune system (i.e. in the case of allergies or asthma), or an impaired ability to clear an infection can result in tissue damage. Excessive formation of blood clots and scar tissue can impair circulation, preventing oxygen and nutrients from reaching the tissues.

Irreversible damage to the brain, nervous system, circulatory system and vital organs can occur as a result of prolonged inflammation.

Heart disease, diabetes, Alzheimer’s disease and cancer are thought to be the result of chronic inflammation in the body.

Enzyme therapy with proteolytic enzymes has been shown to reduce inflammation, pain and edema. Supplemental proteolytic enzymes are able to clean up cellular debris and blood clots, stimulate tissue repair and improve circulation, thus ensuring adequate delivery of oxygen and nutrients to all tissues.

Inflamma Life Force is a premium natural anti-inflammatory aid, providing support to the body both locally and systemically. A synergistic blend of enzymes and botanicals, **Inflamma Life Force** assists with pain control, the breakdown of scar tissue and repair of damaged tissue and blood vessels.

Pancreatin and Serrapeptase provide enzymatic action to counteract inflammation, while Ayurvedic botanicals **Boswellia** and **Turmeric** decrease the number of circulating inflammatory mediators in the bloodstream. **Devil’s Claw** reduces inflammation in the joints, purifies the blood and eliminates uric acid from the body. **Manganese** feeds the connective tissue ligaments and bones.

Inflamma Life Force is an excellent choice for the support of inflammatory conditions, tissue repair and pain control.

Ingredients (per 2 capsules):

Boswellia (65% Boswellin) 450 mg
Devil’s Claw (Harpagophytum Procumbens -standardized to 5% harpogosides) 200 mg
Pancreatin 8X 200 mg

Serrapeptase 20,000 IU
Turmeric (95% Tetrahydrocurcuminoids) 200 mg
Manganese Citrate 2 mg
