

# Green Light

High chlorophyll, "not just another green" botanical nutritional  
60 mL Nutritional SPAGYRIC Tincture

## Patient Reference

### Matrix Nutritional Series

Energy, Fatigue, Immune, Hormones, Libido, Digestion

**Matrix Nutritionals Series** was designed as an eclectic offering for the Physica Energetics line of remedies primarily to assist in the "reactivation of the mesenchyme" (Dr. Reinhold Voll), via the nutritional complement pathways. These pathways are present in every system throughout the body and require balanced attention. In keeping with the principles of BioEnergetic Medicine, the remedies nourish and support these systems without punishing them with overstimulation or imbalancing factors, which, ultimately, is counterproductive. This approach has been carefully and respectfully designed to provide the necessary natural (organic where available), synergistic factors in proper energetic and biochemical ratios, to ensure assistance towards yielding a deep and lasting result. They are not to be confused with replacement therapy nutraceuticals that may seem to help for the moment, until the patient stops taking them or the condition is driven deeper. These remedies honour The Legacy of BioEnergetic Medicine, and are known by both patient and practitioner to be exceptionally effective.

Nobel Prize laureate Albert Szent-Györgyi once said, "**We live by a small trickle of electricity from the sun.**".... The miracle of photosynthesis transforms the sun's light energies into green plants, trees, grasses and medicinal herbs....and more!

**Chlorophyll** is considered by many to be the "blood" of plants because chlorophyll molecules are structurally similar to hemoglobin. The main difference is that the central molecule in humans is iron and the central molecule in plants is magnesium. This was recognized in 1926 by Charles Schnabels.

In 1936, Dr. Arthur Patek reported fascinating results from a study done with fifteen patients who were diagnosed as being anemic. They were asked to take different amounts of green foods along with iron. The level of blood hemoglobin and the number of red blood cells increased faster than with just taking iron alone. Based on this initial finding, further studies have now confirmed that the chemical perspective of chlorophyll is in fact, similar to the chemical structure of red blood cells.

**Green Light** contains *naturally occurring, genistein and coumestrol*: plant phytoestrogens that have estrogen-like effects in humans. These **phyto-estrogens** are believed to be beneficial because they tone down or **mute hypermethylation** effects of excess estrogen while also providing a source of natural estrogen to women during and after menopause, thereby **reducing estrogen-deficiency** symptoms. There also is increasing evidence to indicate the possibility that **genisteins** and **coumesterol** via similar mechanisms, may

inhibit the growth of benign **prostate** hypertrophy and prostate cancer tissue.

**Saponins** found in Green Light assist in the maintenance of strong immune response as well as helping to maintain normal **cholesterol** levels. Naturally occurring chlorophyll salts assist with good **kidney** health by dissolving calcium oxalates.

Chlorophyll is effective against **anemia** as it stimulates the production of **hemoglobin and red blood cells** in the body. Clinical reports clearly indicate that chlorophyll in a liquid or tincture form is absorbed through the gastrointestinal tract and acts as a **cellular astringent** and antioxidant. Clean blood insures that metabolic wastes are efficiently carried away from the tissues.

Green Light may be indicated for *acne, boils, skin ulcerations, burns, eczema, psoriasis, heavy metal and environmental toxicity, and for oral, buccal and dental abscesses.*

Clearly, *Green Light is not just another chlorophyll or green super food product.* It is a **hand crafted, SPAGYRIC** botanical which takes 60 to 90 days to move through a **natural alchemical "fermentation" process** creating one of the most highly concentrated formulas available today.

You will *smell, see and taste* the difference of this rich, aromatic tincture. In fact, most people report feeling an increase in energy within just a few minutes of taking the product. This is due to the almost *instant assimilability of the ingredients* and their "**energetic fields**".

#### Ingredients

Alfalfa (*Medicago sativa*)  
Barley Grass (*Hordeum vulgare*)  
Chlorella (*Chlorella pyrenoidosa*)  
Damiana (*Turnera diffusa*)  
Irish Moss (*Chondrus crispus*)  
Neem (*Azadiracta Indica*)

Nettles (*Urtica dioica*)  
Parsley (*Carum petroselinum*)  
Spirulina (*Spirulina platensis*)

**Posology:** 30 drops 2-3X daily in a small amount of warm water or directly into the mouth
